

FRAME TENTS

Less Labor
Longer Lasting
Upgradable

The Rainier Canopy

The Rainier Span Tent is the widest, strongest, and most durable tube/connector system available in the industry. Available in widths from 10' to 50' and up to 50' in length. Our Span Tents use Keder Tubing for fast installations, reducing your labor costs. And we offer unique fittings and customized tubing that revolutionized the standards in the tent industry.

The Rainier Span

Our trademarked Lite-Span System eliminates the need for bolt-on brackets - brace bars are connected directly into the slot of the Lite-Span Tube, making our system easy and quick to install. The frame components are connected with tube parts, quick pins, bail pins, or bolts.

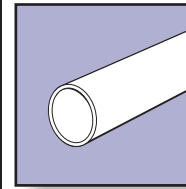

Superior Quality

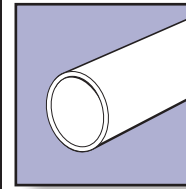

Rainier provides the highest quality tents in the industry, and only provides products that are seamless in design and creation. With careful selection and industry proven standards, we select top of the line fabrics and materials that showcase our mission to provide the best tent products on the market. Rainier has a Quality Management System and we are ISO 9001:2000 registered; our system focuses on continuous improvement to our product quality and customer satisfaction levels.

Rainier Canopy

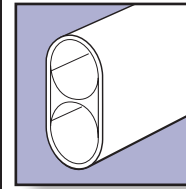

10'x10' up to 40'x40'

LS33– Economical & stronger than other tubing. Anodized 2" tube has the strength to survive the small tent environment.

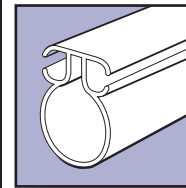

LS51– Larger and stronger anodized tubing. Mid-level strength for mid level spans.

LS99– The strongest tube in the canopy system. Designed for heavy duty environments. Long lasting and durable.

Rainier Span-Lite

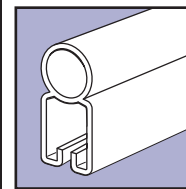

10'x10' up to 30'x30'

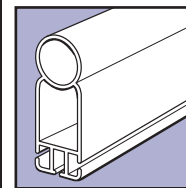

LS69– Adds optimal strength to shorter spans and Keder allows fast assembly for a cost effective system.

Rainier Span

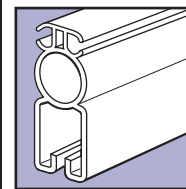

30'x30' up to 50'x50'

LS110– Super strong aluminum tubing, quick pinned for fast set up or bolted for long-term. Compatible with others and shapes of canopy tent systems.

LS116– Eaves allow sidewall to slide into track at bottom and smoothly roll from side to side. Two extra tracks allow for accessories. (lights, liners, etc.)

LS127– Keder tracks allow top to slide into rafters quickly and easily, while adding greater strength and stability. Integrates retro of round tubes.

Innovative and Customization

Rainier offers turnkey solutions for your tenting needs - we can help you from the design phase, production, and even installation of your Rainier Tent System. With custom design capabilities and modifications, our tent system can be adapted to meet your unique needs.

Brands, Graphics, Colors, and Materials

Our standard tent fabric is Herculite S-83, available in blackout white, translucent white, blue, yellow, red, and green, and in a number of two-color striped patterns. Or you can choose to upgrade your tent fabric - we offer Ferrari 502, 602, 702, and 1002, or Sunbrella, a solution dyed acrylic. Or print custom graphics on your tent top.

Matching Your Needs

Since 1896 Rainier Industries sold tents and canvas products to miners headed for the Alaska Gold Rush. Rainier has continued a tradition of innovating high quality tents. Today we use state-of-the-art materials and technology to manufacture the most durable and functional products available. From custom designs to modifications, our tent system is easily adaptable to meet your unique needs.

Customer Service

We take pride in maintaining high standards as an industry leader since 1896. We believe customer service is an integral part of our business, and we're not satisfied until you are! We have dedicated customer service personnel and designated project managers to make sure your tent is built to your exacting standards and delivered on time.

Warranty

Our tent top material is backed by a prorated 5-year warranty. Should you choose to upgrade your tent fabric, the fabric can be warranted for 8, 10, or 15 years.

History

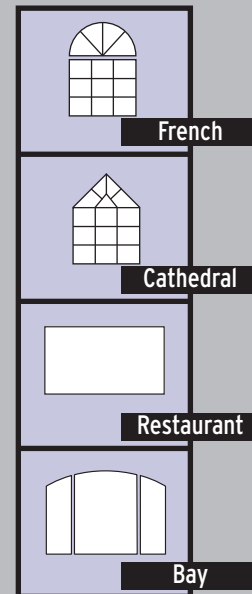

Rainier was founded in 1896, and got its start in the tent business, providing tents to miners headed north in the Alaska Gold Rush. With over 115 years of experience in building tents, you can depend on our skilled craftsmanship to provide you a tent that will last a lifetime.
